Reasons of Allowance

I. The following is an examiner's statement of reasons for allowance:

- The close reference for the current invention is Anderson et al (U.S. 5,471,001).

Anderson et al disclose a process of producing adipic acid crystals in the following steps:

- a. dissolving 160 g of adipic acid in 240 g of water by heating at 95⁰ C;
- b. allowing to the solution to cool down and crystallize under mechanical stirring at 55⁰ C.;
- c. isolating the crystals from the solution .

Furthermore, during the process, the hot mother liquid contains 20 to 50 % by weight adipic acid . Also, after the completion of the crystallization, the particle size of the adipic acid has been analyzed and obtained in the range of from 300 to 330 microns.

The instant invention, however, differs from the prior art in that the reference does not teach dispersing adipic acid crystals or forming a mixture of solid and liquid and then setting that mixture to smooth the surface of the liquid crystals; furthermore, according to Grant's et al Chemical Dictionary (5th ed.), the melting point for adipic acid is 149⁰ C; therefore, it is within the claimed temperature range (20-70⁰ C) that the adipic acid remains in the form of the mixture of solid and liquid without dissolving completely the crystals of adipic acid. In addition,

unless all limitations of the claims are met, there is no prior art rejection. See In re Zurko 59 USPQ 2d 1690 (Fed Cir. 1991) and In re Lee, 61 USPQ 1430 (Fed Cir. 1991).

Therefore, the claimed invention would not have been obvious to the person with an ordinary skill in the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning the communication after allowance such as sending all post-allowance correspondence should be directed to "Box Issue Fee" or faxed directly to PUBS at 703-305-8755. This will expedite the process of these papers.
